Hobbies

Experience

► UI/UX Intern at Stylework, Delhi

Jun - Sep 2021

- Developed Space App and assisted in development of CAP.
- Space App - this product was designed for SW receptionists to simplify their work flow .
- Corporate Admin Panel (CAP) - In this product i assisted my fellow designers in development of various sections such as Roster, Employee-Visits, Your-Employee, Accounts, Billings, Membership plans etc.

Projects

Below mentioned are my recent designs and development projects that I have made during my college, few of them are made in assistance with my teammates. The projects include analysis of problem, research & survey and real time solution for them.

► Meon To-Do List Based on Human Emotions

Aug-Nov 2020

- Basically this app is a outcome of a 3 member team where I worked as researcher, ideator, visual and experience designer.
- This was a app developed on flutter which was focused upon improving productivity of users on daily basis irrespective of their mood.

► Bal - AI based fitness App

Jan - May 2021

- Bal fitness app was made to bridge up the gap of knowledge and repetition count during workout without any requirement of professional or partner.
- This app was developed using Flutter and Pose Estimation Model with realtime accuracy prediction for various exercises like squats, pushups etc.
